

Diploma Apprentice's Name	Annette Argabright		
Project Title	Learning Pathway design		
Date Started	Feb 2021	Date Completed	June 2021
Design Number	1 of 10	Implemented	not yet
Online Link to Design (if available)	https://docs.google.com/document/d/15cO2hC-UCiDIbG1u6S4fbEQ_yvKGyl5YGlgRFwQ20o0/edit		
Land Based / Non Land Based (delete as appropriate)	Land Based / People Based / other (state what)		
Name of Personal Tutor or Assessment Tutor (if different from PT)	Lusi Alderslowe		
Ready for Presentation (delete as appropriate)	Yes Ready /		
Date & Signature of Assessment Tutor	Lusi Alderslowe, 22/6/21		
Date first registered for Diploma	February 2021		
Accreditation stage (this design as related to overall portfolio)	Interim Portfolio Assessment		

If this design is included in the FPA2 sample / moderated by a Senior Tutor:

Comments from Senior Tutor	
Name, date & signature of Senior Tutor	

ACCREDITATION CRITERION 1: Demonstrating design skills (for further guidance, see section C3, page 5, in the Guide to Accreditation Criteria)			
		What's gone well?	What could have been done differently?
1a	The design uses an appropriate design framework or intentional process accurately	You clearly and methodically go through the Looby Design web design process	
1b	It references the permaculture ethics appropriately	The table of ethics and principle is helpful. You have gone through each ethic and considered how the implementation of this design will enable you to exhibit the three ethics.	Go through each ethic
1c	The design uses permaculture principles & theory that are appropriate to the situation	You selected the principles that are the most relevant to this design and wrote about how each is related.	Typically in Looby's design web the expectation is for you to go through every single principle of one set - for example to go through all 12 principles.
1d	It uses a variety of tools to suit the needs of the situation/ design brief	a table to check if criteria are being met gantt chart - good job, really clear.	

1e	The design is intelligible, coherent and effective, meeting the client's needs	The design is nice. It is really lovely how you presented the Gantt chart and the carefully considered colour-coding.	I suggest that you duplicate the sheet of the gantt chart so that when you review it and see that it has changed, you will still keep the original sheet.
1f	The documentation is appropriate to present to the clients and others	The documentation is clear, you carefully go through each of the questions from Looby's Learning Pathway design process and explain your answers to each question.	

ACCREDITATION CRITERION 2: Applying Permaculture design to projects

(for further guidance, see sections C2, page 4, and C4, page 6, in the Guide to Accreditation Criteria)

Areas of Application (delete all that don't apply)		
Site / land development System development & implementation Architecture, building & retrofitting Personal development, "Zone 00", health and well-being, etc. Community Development Education & training	Design Consultancy Finance Manufacturing Research Art, Media, Culture & Communication Administration & organisational design Business Trusteeship Other- general	
	What's gone well?	What could have been done differently?

2a	<p>SURVEY There is a clear explanation of how the design brief was investigated through surveying the situation and gathering the information.</p>	<p>As this is a personal design, you start with a clear survey of yourself, who you are, what you learn about for example that you don't like designing gardens for other people. You went through Looby's questions considering your vision of yourself, as well as which skill you would like to develop.</p>	
2b	<p>ANALYSIS & DESIGN There is a clear explanation of how the design decisions and solutions were developed.</p>	<p>Identifying limiting factors - particularly starting many different projects, I hope that the Gantt chart will help you to stick to the ones you want to progress. The identification of the pattern of which types of design you want to include helps you to analyse the different possible designs and choose a balanced portfolio. The gantt chart is really clear and nicely presented. The spiral design showing how your designs move from inner to outer, is really lovely!</p>	
2c	<p>IMPLEMENTATION & MAINTENANCE PLANS The solutions are relevant and appropriate to the area and design brief.</p>	<p>The Gantt chart is also an implementation plan, and helps you to see how you will implement each step of the design process. this sentence is a lovely maintenance plan for after the diploma "I want to establish a paradise around me that reminds me of all I have learned every day."</p>	
<p>ACCREDITATION CRITERION 3: Learning from and developing your permaculture practice (for further guidance, see section C5, page 7, in the Guide to Accreditation Criteria)</p>			

	What's gone well?	What could have been done differently?
3a The design report includes an evaluation of the design's effectiveness .	There is a section which explains how you will evaluate the design and at what intervals.	Although at this stage you can't evaluate it, you can plan when you will evaluate it.
3b There is critical reflection on how you used theory, design tools, and processes, and some next steps for this design.	There is a small reflection section in which you identify	The reflection section could be more deep.
3c The design shows how design skills and competence have progressed and some next steps for design practice.	This is your first design, so it is great to see how you have taken the framework provided and answered each of the questions in turn.	

The Next Steps	
What are the apprentice's next steps with this design , towards its accreditation.	<ol style="list-style-type: none"> 1. ethics - DONE 2. principles - DONE 3. evaluation plan - DONE

<p>What other general or specific issues might help with the apprentice's next steps, eg. to take into future designs.</p>	<p>Next steps will be for you to design without using a template (as you have now done 3 designs using a template, hopefully that is setting you in good stead for the next ones).</p>
<p>Any other comments about the format of the project presentation,</p>	<p>The format is clear. I like the use of the 3 different ways of showing your designs.</p>
<p>The highlight of this design for me is...</p>	<p>the combination of ways that you presented the diploma - not only as 10 designs, but as fields of learning.</p>

<p>Space for any other notes and comments to the apprentice (This isn't part of the feedback against the accreditation criteria, but you might want to offer other references, suggested books or websites, etc. useful for future development for this design, or generally.)</p>
Empty space for notes
